FY03 TASS Training Ammunition Management

FY03 ACCREDITATION ISSUES

- **Effective 01 Oct 02, all Accreditation deficiencies for Class V items will be coordinated with TASSD Ammo Mgrs for review if deficiency is HQDA/HQ TRADOC higher headquarters issue (ammo shortage/nonavailable issues) or TASS BN/RTIs deficiency for not providing requirements/forecast within required timelines (official information on TASSD TAMIS-R database)**
- **If TASS BN/RTI has POI requirements posted for FY03 Ammo and ammo authorized is less than required quantity because HQ TRADOC did not receive sufficient quantities from HQDA, the deficiency is Higher Headquarters (HQDA/HQ TRADOC).**
- **If TASS BN/RTI does not have POI requirements posted on for FY03, and ammo authorized is less than required, the deficiency is the TASS BN/RTIs.**

And they lived happily ever
after....
